Training

Lovely Professional University

Jun 2024 - July 2024

Course: Logic Building, Programming, and Data Structures

- Gained expertise in logic building, programming, and data structures using C++ and Java
- Developed problem-solving skills and implemented efficient algorithms
- Focused on Object-Oriented Programming (OOP) and Data Structures & Algorithms (DSA)

Projects

Cattle Vision | Python

Jan 2026 – Apr 2026

- Engineered CNN-based workflows using EfficientNetV2-S for cattle and buffalo breed classification.
- Crafted preprocessing pipelines improving model accuracy and reducing overall training time.
- Enhanced EfficientNetV2-S inference pipeline enabling real-time breed prediction from images.

Netflix | Tableau

Sep 2024 - Dec 2024

- Built interactive Tableau dashboards analyzing user engagement and content performance trends.
- Designed visual reports tracking watch time, user retention, and regional preferences.
- Implemented custom filters and dynamic charts for real-time insights and decisions.
- Github Repository Link : <https://github.com/Bulli9989/Netflix-Dashboard>

Heart Disease Analysis| ML with R

Sep 2024 - Oct 2024

- Used machine learning models in R for predicting heart disease risks accurately.
- Applied K-Means, SVM, Decision Tree, and Linear Regression for predictions.
- Performed data preprocessing, feature selection, and exploratory data analysis techniques.
- Github Repository Link : <https://github.com/Bulli9989/Heart-Disease-Analysis>

DineEase| HTML & CSS

Oct 2022 - Dec 2022

- Designed a responsive and visually appealing restaurant website using HTML and CSS
- Implemented modern layouts, animations, and smooth navigation for a great user experience.
- Utilized CSS Flexbox and Grid to ensure mobile-friendly and cross-browser compatibility.
- Github Repository Link : <https://github.com/Bulli9989/Resturant-Management-System>

Certificates

Data Analytics Job Simulation | Link

Jun 2026

Data Analysis Using Tableau | Link

Nov 2024

Logical Building Data Structures | Link

Jul 2024

Software Testing | Link

Apr 2024

Technical Skills

Languages: Python, R, Java

Technologies/Frameworks: Git, GitHub, Ubuntu, Tableau, Excel

Skills: Data Structures and Algorithms, Positive attitude, Adaptability

Education

Lovely Professional University Punjab

2022-2026

Computer Science and Engineering — CGPA: 7.04

Jalandhar, Punjab

Sahasra Junior College

2020 – 2022

12th with Science — Percentage: 86

Kakinada, Andhra Pradesh

Sasi English Medium High School

2019 – 2020

10th with Science — Percentage: 85

Kanuru, Andhra Pradesh
